

BL Bar 60

Functional, simple and built for your needs.

Blubar 60 was designed to satisfy the needs of all our customers. It is the perfect solution for small hotels, bed and breakfast locations and pubs.

Discover all the features of our new Blubar 60 and fall in love with its unique design!

BL Bar 60

Gas R290, totally natural

An ecological choice, with the advantage of a quieter compressor that guarantees a longer life of the entire refrigeration system and ensures energy saving.

Ice Bank

Is the cooling technology that uses Coil in water, with very high performances.

UVC led OUT (optional)

A bactericidal lamp installed at the exit of the tap.

Portion Control

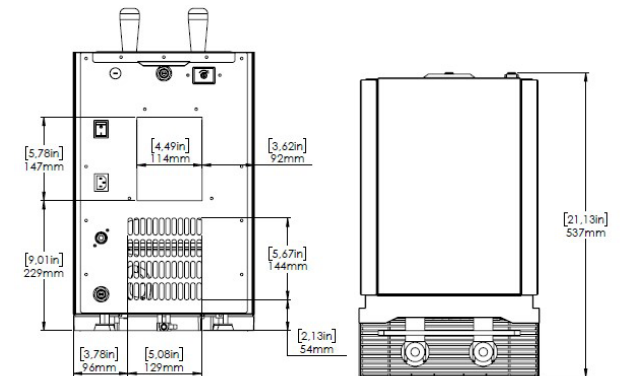

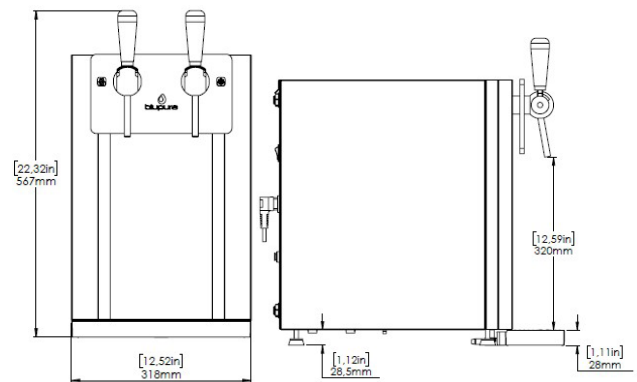

Blubar 60 understands the capacity of the bottles to optimize time and avoid waste.

Nano silver pipe (optional)

A stainless-steel pipe is treated with silver ions to avoid the formation of bacterial grow due to its smooth surface.
