

Water for life

Now available: Hydration stations in your school

Drinking water fountains and bottle (re)fillers are installed in your school. Students can fill and refill reusable water bottles with high quality drinking water at all times or simply have a sip of fresh water when they pass by the hydration station.

Stay hydrated!
Drinking 2 liter water
per day keeps you
healthy
and energized!

Easy to use

(Re)fill your bottle - With a touch free activation sensor your bottle is automatically filled with fresh drinking water when placed in the filling station;

or

Drinking water directly - With a simple push button a flow of water is activated to hygienically drink without touching any part of the dispenser; or

A personal bottle

Every student will receive a reusable water bottle for free. Now you can take your water everywhere!

- 0,75 ltr
- Refillable
- BPA free
